## GENERAL INFO

The vision of our venue, Hybrid, is to create a space where audience and musicians can delve deep into the musical experience. The concerts are usually seated, with a capacity around 90-100. Our goal is to deliver a programme of high quality within the narrow genres, world, folk and jazz - catered towards a curious audience. We are funded by Aalborg Kommune, and Statens Kunstfond. In the years 2017-2020 Huset is appointed as a "PULS" venue, meaning that we will present a broad selection of concerts from the other nordic countries.

## HOSPITALITY

Huset serves vegetarian dinner with 30-60% organic produce from our own kitchen from 17:30 to 19:30. All drinks at the venue are organic. Huset doesn't provide a refrigerator backstage, but bands can get drinks for free at our bar from arrival and until they leave. We usually don't cater to requests in riders that goes outside of our standard hospitality, but we do our best ensure that our artists have what they need. Acces to computers, wi-fi and printer are all available.

## BACKSTAGE

Our backstage area is equipped with couches, chairs, tables, mirrors power outlets (and a piano!). The room can be locked at will, only our employed staff carries keys, There's no direct acces to the stage area from the backstage room, but the path between stage and backstage is clear from audience. At concerts with 2 or more bands backstage is shared between the bands unless anything else has been requested (we have spare rooms in other parts of the house). Showers can be found in seperate building from the backstage room, ask our staff for acces. Backstage room shares toilet with audience.

## STAFF & VOLUNTEERS

For all shows at Huset there will be at least a house technician and production manager present, often with help from volunteers for bar and entrance duties. The staff present will help as stagehands. We don't employ runners or guards for our shows, but we try to be as helpful as possible, and keep everything nice and orderly, having a complete overview of stage safety and entrance to backstage at all times.

# TECH SPECS

## PA
